No matter what the catastrophe, the bottom line in banking is that your customers may endure flood, fire or whatever but expect you to be up and running for *their* convenience!

And, now the government demands it! The newest Federal Disaster Program requires all federally chartered banks to have a backup facility available within 48 hours in the event of a disaster.

You can satisfy them both and be prepared with the **Bank-ina-box™** solution from **Sommer's Mobile Leasing, Inc.** Our **Bank-ina-box** line of modulars can come with a safe, teller stations, offices, conference areas, lav and a design that keeps you looking professional, capable and trustworthy. An affordable yearly contract assures that an **Bank-ina-box** will be available.

Let's talk about a simple solution to keep you in banking before an exasperating emergency happens and the phones are dead.
